Summary

Results-driven Data Analyst with hands-on experience in Python, SQL, Power BI, and machine learning pipelines. Skilled in data cleaning, EDA, report generation, and translating raw data into actionable business insights. Proficient in Git, Docker, and Agile workflows. Adept at executing operational analytics tasks and communicating findings to cross-functional stakeholders.

Skills

Programming & Querying: Python, SQL, PL/SQL

Analytics & ML: Pandas, NumPy, Scikit-learn, Feature Engineering, EDA, Descriptive Statistics, Predictive Modeling

Visualization & Reporting: Power BI (DAX, KPIs), Tableau, Advanced MS Excel (Pivot Tables, VLOOKUP, Power Query)

DevOps & Version Control: Git, GitHub, Docker, CI/CD Basics

Databases: PostgreSQL, MySQL, SQLite, MongoDB, Oracle

Operational Skills: Data Cleaning, Dashboard Design, Report Generation, KPI Tracking, Data Storytelling, Business Analysis

Soft Skills: Analytical Thinking, Communication, Problem Solving, Team Collaboration, Attention to Detail

Experience

Full-Stack Developer

Jan 2025 – Dec 2025

Adwaijra Technologies Pvt. Ltd., Hyderabad

Tools: React, MongoDB, Express.js, JavaScript, Git, API Integration

- Developed and optimized a scalable **MERN Stack** e-learning platform using MongoDB, Express.js, React.js, and Node.js to deliver interactive online learning experiences.
- Built and integrated secure **REST APIs** for user authentication, course management, progress tracking, and backend communication.
- Designed responsive and user-friendly interfaces using **React.js**, improving user engagement and accessibility across devices.
- Improved application performance by **35%** through code optimization, efficient API handling, database query optimization, and lazy loading techniques.

Python Developer & Machine Learning Intern

Jul 2021 – Sep 2021

iBase Electrosoft LLP, Amravati, Maharashtra

Tools: Python, Pandas, Scikit-learn, Excel

- Built end-to-end **Python data processing pipelines** for cleaning, transforming, and preparing datasets for ML model training.
- Performed **feature engineering, model training, and evaluation** using Scikit-learn and Pandas; achieved 82% classification accuracy.
- Generated structured **summary reports** documenting model findings, data quality observations, and operational recommendations.

Projects

Customer Churn Analysis | Python, Pandas, Matplotlib, Seaborn

Feb 2026 – Mar 2026

- Analyzed 7,000+ telecom customer records** to identify churn patterns by tenure, contract type, and monthly charges using EDA.
- Revealed **38% of churned users** were on monthly contracts under 3 months tenure—recommended targeted early engagement strategies.

Sales Performance Dashboard | SQL, Power BI

Dec 2025 – Jan 2026

- Queried and joined **3 normalized sales tables (25,000+ rows)** across 5 regions using optimized SQL to build analysis-ready datasets.
- Detected a **14% post-festival sales drop** in the South region; insight was incorporated into the quarterly marketing recovery plan.

GenAI-Powered Delinquency Risk Report | Python, AI Tools, Data Storytelling

Jan 2026 – Feb 2026

- Developed an **AI-assisted business report** with data storytelling to present collections strategy insights to simulated executive stakeholders.
- Built an **AI-driven collections strategy framework**, quantifying predicted delinquency rates and recommending data-backed operational interventions.

Certifications & Job Simulations

- The Ultimate Job Ready Data Science Course**
- GenAI Powered Data Analytics Job Simulation**
- Data Science Job Simulation**
- Data Analytics**
- Foundations: Data, Data, Everywhere – Google Data Analytics**

Code With Harry, Feb 2026
Tata Consultancy Services / Forage, Feb 2026
Lloyds Banking Group / Forage, Feb 2026
Deloitte Australia / Forage, Jul 2025
Coursera / Google, Dec 2023

Education

Bachelor of Technology (B.Tech), Computer Engineering

Nov 2022 – Jun 2025

Nagpur University

Diploma in Computer Engineering

Aug 2019 – Jul 2022

Government Polytechnic
